SUMMARY

I am a passionate **Full Stack Developer** skilled in building user-friendly and efficient web applications. With experience in the **MERN stack** (MongoDB, Express.js, React.js, Node.js) and modern web technologies, I create responsive designs and seamless backend systems. I enjoy learning new technologies, solving problems, and working on innovative projects. My ability to adapt quickly and focus on delivering quality work makes me ready to contribute to impactful teams.

PROJECTS

EasyShop

<https://github.com/Sathish14325/Easy-Shop>

Electronics E-commerce website

- Developed a feature-rich e-commerce platform with a user-friendly shopping cart, product reviews and ratings, search functionality, and an admin dashboard for seamless management of products, users, and orders. Integrated Razorpay for secure payments and implemented efficient order tracking.

ChatNest

<https://github.com/Sathish14325/ChatNest>

Real Time Chat Application

- Developed a Full Stack Chatting App featuring real-time communication with Socket.io and secure user data storage in encrypted format using MongoDB.

EmployeeTrack

<https://github.com/Sathish14325/employee-management-system>

Employee Management System

- Developed a web application for efficient employee record management, allowing authorized users to perform secure CRUD operations with role-based access control.
